THE WORLD IS EVOLVING, WHY NOT EDUCATION?

Our mission is to deliver
AN EDUCATION THAT TRULY MATTERS

“WHEN TEACHING AND LEARNING ARE VISIBLE, THERE IS A GREATER LIKELIHOOD OF STUDENTS REACHING HIGHER LEVELS OF ACHIEVEMENT.”

- John Hattie

Making learning visible is an important aspect of the IB Primary Years Programme. We at Learners International, harness and encourage our young learners to take ownership and accountability of their learning and of the processes involved in their learning journey. The journey through the first Transdisciplinary Theme was exciting and challenging for the learners as well as the facilitators. We collaborated, explored and researched new ideas and concepts and culminated our learning experience by displaying our work for everyone to gain a better understanding of it. Effective documentation can foster both individual and group learning, creating a relationship between them. It also enables us to identify methods and processes that will enable us to reflect on the learning processes of our learners. Classroom is a space where we live, laugh and learn together and sharing our learning in a progressive and meaningful way makes learning purposeful and holistic.

FACILITATOR PARENT MEETING

As we culminated our teaching and learning activities for the first four cycles, we looked forward to parents' visit to our Facilitator Parent Meeting on May 14, 2022.

During those times, our young learners had been busy with their respective inquiries and have improved their understanding and knowledge to a great extent.

What do you love the most about your new school?

Kiana

I like the teachers, I like the classroom. I like the school. The food is yummy.

Tarun

I like the bus ride because I get to talk to my friends. The bus is so big. I like to eat the food in school because it is very tasty and the timings of the food are very correct.

Arihant

I love my class community and friendship. I love to play with my friends.

Virat

I love the bus because it has A.C. and its glass never cracks. The food is wonderful. I like to sit and Kiaan and eat with him.

Kiaan

I like to play with my friends. I make robots, fans and cars in my robotics class and I love my Ma'am.

Kriish

I love the school, Ma'am and my friends. The food is good. It tastes like the food I eat at home.

What do you love the most about your new school?

Maan

I love the food in the school and it was delicious. I love pav bhaji and rajma. I love to sit with my friends and Ma'am to eat.

Tejasw

I love the food because it's so yummy. I love to sit with teachers and eat. I love my swimming and dance and music classes.

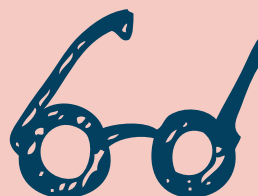

Seerat

I like to swim and have fun with my friends. I also love the food. Rajma Chawal is my favourite. I like to study with my teacher. I love to go to robotics class too.

Aparna

I love to swim. I love to do cut and paste activities. When my facilitator gives me some colouring prints then I love to colour them with sketch pens. I love to have noodles that I get in school.

What do you love the most about your new school?

Aamaira Rohit Verma

I love my school and wait everyday to come to school. I dont like when sometimes I gvet late, especially when I have a swimming class in the morning. I like the food in the cafeteria and love to eat with my friends.

Aahana Rohit Verma

I love my school the most. It is the best place and I meet my friends. We play in the class and my teacher allows me to eat with my hands and calls me cute. I love the school food. Especially chinese food and my teacher lets me eat more donuts if I eat fruits and finish my food.

Daksh Sharan

My school is my safe space. My friends understand me and help me whenever I need them. My teacher takes a lot care of me and teaches me new things. My favourite place in my class is my calming corner and library. My teacher lets me keep a book there and I love to read it in that corner.

Atharv Thapar

I enjoy school from bus ride to dispersal. I have many friends in my class and bus and I love talking to them. I enjoy eating with my friends and I learn a lot of things with my friends. I love when I go to the ICT Lab for research work.

Aaliya Singh

School is very beautiful and I love my school. I love the chinese food in school.

Anhad Saini

I have a lot of friends in school and I enjoy the most with them. They make me happy and I play a lot with them. My teachers teach me many things. I learnt describing words and now I can make my sentences beautiful.

What do you love the most about your new school?

Ekaansh Chowdhury

As I walk inside the school campus every morning, I feel at home. All my facilitators guide me very well. There is so much to do in school from the morning assembly to the wellness session in the afternoon. I enjoy every bit of it.

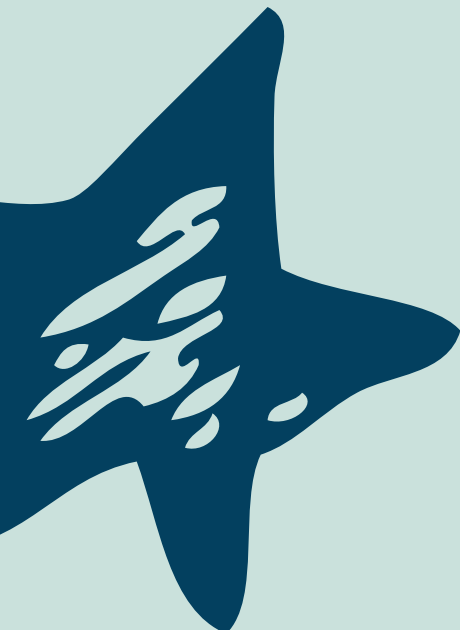

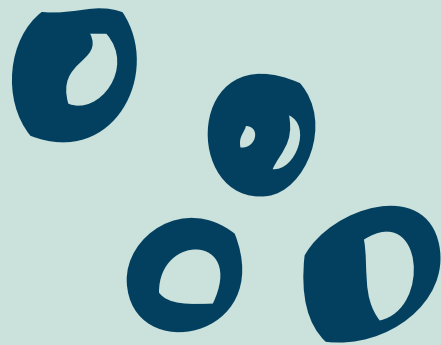

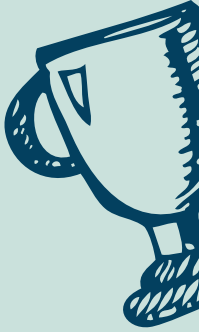

Elina Jena

I love coming to school everyday. I enjoy the activities and the yummy food. The doughnuts attract me a lot and I am mindful of not wasting food.

Priyadarshini Sharma

The school building looks good and I love playing on the campus. There are so many exciting things around and the xylophone is my favourite. I love playing it.
