

Let's Build A Community
Of Lifelong Learners

THE LEARNERS HIVE

Celebrations

Of Smiles, Shines, and Joy: Why Celebrations are Important in School.

Celebration is an active state, an act of expressing reverence or appreciation.... celebration is a confrontation, giving attention to the transcendent meaning of action. Celebrations help to augment learning in school. The carnivalesque nature of festivals celebrated through the year leaves one beaming with the prospect of celebrating them.

Celebrations enhance social interaction skills.

Besides being integrated into the academic curriculum, it offers the learners opportunity to interact with the community around them. They help learners understand the essence of the community and what relevance it holds on to the overall nurturing of the individual. It also helps a child form a certain sense of interaction with people in the community, thereby nurturing their communication and interpersonal skills.

Understanding Values of Unity, Inclusion, and Harmony

We have a robust curriculum that promotes internationalism. Learners have the unique experience of learning and incorporating lessons from various cultures around the world. We recognize the importance and benefit of maintaining a global perspective in everyday life. Learners understand the values of unity, inclusion, and harmony. They become more socially and emotionally mature.

Being Principled and Balanced

Celebrations of festivals in school help to reinstate ethical values over evil and disorder. The folk tales and morals associated with the festivals provide a great learning lesson within the classroom space. It helps the learner to develop the attributes of being principled and balanced.

Comaraderie of School life

At Learners celebrations are wholesome and inclusive. The kaleidoscopic nature of our celebration fosters a holistic environment. Learners from Early Years to Grade V, bask in the spirit of celebrations and form a holistic bond within the community.

At the school level, once the learners are involved in the act of doing good with others, they are also engaged in changing who they are. In the process, they learn to put self-care at work, navigate through ever-changing challenges, reclaim agency, and harness growth, without burning out.

Flow and Glide

We hosted our **Skating event- "Flow and Glide"**, on **2nd December 2022**. The main aim of the event was to introduce our young athletes to a multisport lifestyle. It gave our learners an opportunity to showcase their skating skills. Skating is a great way to alleviate back-to-school stress, and it provides a welcome distraction from everyday worries. Our learners enthusiastically participated in the event and showcased their true spirit of sportsmanship. They displayed great body balance and glided smoothly on wheels. All our learners participated with a lot of enthusiasm in the skating event held at school. Even the ones who were in very nascent stages of skating put in their very best and showed true sportsman spirit by completing the rounds.

Our Kindergarten learners participated in the skating event with passion and vigour.

Learners receiving certificates after the skating event.

Learners of Grade 3 all set to participate in the skating event.

Learners of Grade IV are off to a start!

Anand Utsav - Learning through Celebrations

At Learners International School, we focus on the learner's all-round development. Our Early year rockstars enjoyed the limelight on 'Anand Utsav'. They displayed excellent communication skills as they took the opportunity to welcome the guests and announce the events during the showcase. The showcase captured the essence of Early Years.

The Montessori learners walked confidently on stage during the story character parade. Our Nursery learners looked adorable as they danced on stage gracefully. The Kindergarten learners stole the show as they sang the song titled 'Beautiful Day' melodiously. The idea of being 'International minded' was displayed as they performed dances from around the world.

It was a proud moment for the facilitators and parents to see them being independent and carrying themselves on stage. The event saw a beautiful display of 'Caring' and 'Principled' attributes of the IB Learner Profile as the learners from Grade I-V supported the event and took care of the learners. We look forward to witnessing more such opportunities of growth and learning for our learners.

Our learners perform on Anand Utsav.

Our early years learners surprised everyone with their perfect performances.

Grade 1 learners showcasing the traditional dance forms.

Our Grade II learner doing the compering.

A proud moment for all the learners and facilitators.

Early years Learners participated in various events on the occasion of Anand Utsav.

The art of dance plays an important role, not only in India, but it is also a symbol of traditional culture in various other countries. Our primary year learners explored dance forms from different countries and presented some astonishing dance forms of India, China, U.A.E, Spain. This was a great learning for our learners as with being knowledgeable about different dance forms, they also had an enriching experience of performing in front of a mass audience. Our learners have shown tremendous confidence and have amazed everyone with their mesmerizing and heart winning dance moves in 'Anand Utsav.'

Early years performance on Anand Utsav.

Dance performances by our early years.

Dance performances by our early years.

Learners explored the diversity of music by knowing about different musical styles in local to global context and discovered different flavors of music. They got to know about different layers of musical compositions based on a certain musical style including musical instruments, vocal style, diction. They learnt songs based on classical and western musical style and performed the same in the school event “Anand Utsav”.

Frost Fair

Learners across all grades enthusiastically participated in all the activities of the 'Frost Fair' from decorating your own cupcake, painting a pot, bouncy, singing and painting your T-shirt. They were awarded with participation certificates for singing and painting your T-shirt. They enjoyed doing all the activities and participated in all the competitions with great vigour and passion.

Learners Stall - A great Initiative.

Grade V took the initiative to put up their stall 'Learner's world' at the winter carnival- Frost Fair. They sold handmade cards, gift tags, fresh juices, cookies and brownies. The collected fund will be donated to a cause to set up a library in an underprivileged school as a community service.

Celebrating for a cause!

The cards were made out of natural materials like pressed flowers and handmade papers, old book papers etc. Grade I also took interest in the activity and enthusiastically contributed to the making of beautiful cards and gift tags.

Learners created the cards for a community cause

Grade V Learners also interviewed the parents who volunteered to put up the stall and shared their reflection.

We wanted to help the learners to prepare the food so that everything can go smoothly. Also, we feel learners got enough time to introduce the products to the parents and were able to explain the purpose and the goal they were trying to achieve.

Aradhya's Mother

We helped the learners by making the juices, shakes, brownies, cupcakes, and other mouth-watering foods. So that they could sell, introduce the variety of food, and talk about the purpose behind their stall.

Ekaansh

How was your experience?

Ekaansh

How did you provide help in the Frost Fair?

I was with grade V learners and helped them to sell bakery goods so that they could get more time to interact with parents and tell more about their stall.

Aradhya's Mother

My takeaway from the stall was that sometimes it becomes hard when many things happen at the same time. So, you must work fast and smart. Teamwork is important to make any event successful.

Elina's Mother

What was your role?

Ekaansh

What was your learning or take away from the Frost Fair?

Reflections of our Grade 5 learners

The Frost Fair carnival took place on 24 December 2022, and it was my first experience celebrating Christmas in school. All the grades performed an amazing performance for the parents and guests.

After the performance we all put up stalls. My classmates and I put up stalls for homemade bakery items and juices as the money we earned will be donated to charity. While setting up the stalls we learnt how to deal with customers, bargain and also, we learnt how to synchronize ourselves as a team.

It was fun when we made the juices and bakery items as it was a new experience.

The best part was setting up the stall and the fact that the visitors to the stall liked the product and our services.

To sum it up, it was a great experience.

Elina - Grade V

On Frost Fair (December 24th, 2022) I learnt many things and I also got responsibilities that I had done on frost fair. We had some roles in performance as well. After the performance we went back to our stalls to sell our bakery items and I was happy that I participated in it. Our motive was to donate the money to charity.

Priya - Grade V

Competitions and other shows

Life is all about using the whole box of crayons. The painting competition gave our learners the perfect opportunity to showcase their skills. They explored the horizon of creativity and experience, the fun and pride by colouring a T-shirt. Learners also participated energetically in the singing competition. It also helped our learners expand their minds and increase their self-confidence.

Learners showcasing their creativity.

Wonderful artwork by our learners.

Painting competition.

Learners showcasing their creativity.

Learners receiving certificates in the painting competition.

Learners enjoying the puppet show.

The Magic Show was enjoyed by all.

Learners thoroughly engage with the clown and indulge in some juggling.

Learners getting the tattoos done of their favourite characters.

The scrumptious food - enjoyed by everyone.

Not only the learners, even the parents got excited about creating shapes using balloons.

All about International Boards

Our All About International Boards stall helped parents understand the curriculum we follow at Learners International School. For learners, Cambridge IGCSE helps improve performance by developing skills in creative thinking, inquiry and problem solving. It is the perfect springboard to advanced study. Through our International Curriculum stall we helped parents understand the need and how it is different from other curriculums.

Facilitators help parents understand the requirements of the international curriculum.
